

CONNECTICUT CERTIFIED HORTICULTURIST PROGRAM

Program Overview

CNLA's annual **13-week certification** program will teach you botany, plant identification, and professional horticultural information. The low admission fee for the Connecticut Certified Horticulturist program makes accreditation open to all persons in the nursery and landscape industry. Learn directly from several instructors, who give great, two-hour informative lectures each night. Pass the CCH exam and you will be recognized at the CNLA Winter Symposium in January

The on-line classes will be held on Tuesday evenings from 7:00—9:00 pm beginning August 27. Prior to the start of class, a link to login to the on-line course will be emailed to you. Only registered attendees can participate in the class.

The manual will be accessible online and is included in the registration fee. You may purchase a physical manual for \$90 which includes shipping.

Recertification

Once you become a "CCH", it's easy to maintain your professional designation by re-educating yourself at industry seminars, trade shows, service to CNLA, etc. More details on recertification details are on the website www.cnla.biz.
