At Mycorrhizal Applications (MA), we are dedicated to sustainability by providing the agriculture, horticulture, landscaping, and forestry industries with efficient and effective microbial-based biorational solutions. As the world's leading manufacturer and supplier of mycorrhizal soil inoculants, MA researches, produces, and markets mycorrhizal fungi which accelerate plant performance by greatly increasing the surface absorbing area of roots, producing a healthier root system. These specialized fungi colonize plant roots to create a symbiotic root-and-mycelial network within the surrounding soils, increasing efficiency in nutrient and water absorption to optimize plant hardiness and vigor. MA's MycoApply® line of professional mycorrhizal inoculants is utilized by landscapers, farmers, forest nurseries, restoration, erosion control specialists, greenhouses, soil media manufacturers, and professional horticulturalists to maximize plant success and improve return on investment. MA is a wholly owned subsidiary of Valent BioSciences.
